DETAILED ACTION

CONTINUED EXAMINATION UNDER 37 CFR 1.114 AFTER FINAL REJECTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission of RCE and the amendment filed on July 22, 2005 have been entered. Since applicant has added new claims 56-79, the claims pending in this application are claims 14-20, 27, and 32-79 wherein claims 40-43 and 52-55 have been withdrawn due to species election. Rejection and/or objection not reiterated from the previous office action are hereby withdrawn in view of the amendments.

Election of Species

2. In view of newly added claims 58-79, the examiner considers that this application contains claims directed to the following patentably distinct species of the claimed invention:

- (1) said mobile genetic element is a transposon (claims 58, 59, 69, and 70)
- (2) said mobile genetic element is an integrating virus (claims 58, 60, 69, and 71)
- (3) said mobile genetic element is an IS element (claims 58, 61, 69, and 72)
- (4) said mobile genetic element is a retrotransposon (claims 58, 62, 69, and 73)
- (5) said mobile genetic element is a conjugative transposon (claims 58, 63, 69, and 74)
- (6) said mobile genetic element is a P element of *Drosophila* (claims 58, 64, 69, and 75)
- (7) said mobile genetic element is a bacterial virulence factor (claims 58, 65, 69, and 76)

Art Unit: 1634

- (8) said mobile genetic element is *mariner* (claims 58, 66, 69, and 77)
- (9) said mobile genetic element is TcI (claims 58, 67, 69, 78)
- (10) said mobile genetic element is Sleeping Beauty (claims 58, 67, 69, and 78)

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, generic claims are claims 14-20, 27, 32-39, and 44-51.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Papers related to this application may be submitted to Group 1600 by facsimile transmission. Papers should be faxed to Group 1600 via the PTO Fax Center. The faxing of
